Bio-sauna

La Biosauna è una sauna con livelli di temperatura contenuti tra i 50 e i 60°C e un'umidità di circa 60-70%. Grazie al vaporizzatore integrato, impostando la temperatura preferita, la stufa Bio creerà l'equilibrio perfetto fra calore ed umidità. Il sistema combinato Effe consente la scelta tra Biosauna, un percorso a metà strada fra la sauna finlandese e la natura mediterranea del bagno di vapore, o sauna tradizionale, caratterizzata da temperature fino a 100°C con bassa umidità. Il sistema combinato può essere applicato a tutte le saune Effe.

The Bio-sauna is a sauna whose temperature ranges from 50 to 60°C with humidity between 60-70%. The built-in vaporiser allows you to set your preferred temperature and the Bio heater creates the perfect balance between heat and humidity. The combined Effe system allows you to choose between a Bio-sauna, a halfway house between the Finnish sauna and the Mediterranean nature of the steam bath, or a traditional sauna with low humidity and a temperature of up to 100°C. This combined system can be installed in all Effe saunas.

KNOW-HOW & TECHNOLOGY

SEC Smart Energy Control

Distribuzione uniforme nel tempo dei cicli di accensione e spegnimento delle termoresistenze in modo da ottenere una diffusione costante del vapore.

Evenly spaced on/off periods for the heating elements to obtain even steam distribution throughout the session.

SBC Smart Boiler Cleaning

Diluizioni e risciacqui intermedi calcolati sul reale fabbisogno per ridurre l'accumulo di calcare e aumentare la durata della caldaia senza manutenzione.

Dilution and intermediate rinsing processes not time controlled but based on real need to reduce limescale deposits and avoid frequent boiler maintenance.

SWF Smart Water Filling

Gestione ottimizzata di riempimento caldaia, risciacqui intermedi e svuotamento. Le resistenze lavorano sempre in maniera ottimale.

Optimised management of boiler filling, intermediate rinsing and emptying process. Heating elements programmed for optimum operation.

ECC Effe Comfort Control

Il sistema è integrato nel generatore di vapore Effe e consente di gestire a distanza il bagno turco tramite l'App Effe ECC su tablet o smartphone.

This system is built into the Effe steam generator, enabling remote control of the Turkish bath from a tablet or smartphone using the Effe ECC app.

PSF Power Steam Function

L'innovativo sistema di gestione della ventilazione minimizza la stratificazione delle temperature all'interno della cabina, grazie ad una ventilazione controllata.

The innovative ventilation management system minimises temperature layering inside the cubicle by controlling ventilation.

RWF Regulating Water Flow

Il generatore può lavorare dentro un ampio range di pressione dell'impianto idrico del locale: da 0,2 bar a 10 bar.

The generator can work on a wide range of water systems with different pressures, from 0.2 bar to 10 bar.

ODS Open Door Sensor

Il sistema è in grado di bloccare automaticamente l'erogazione del vapore in caso di prolungata apertura della porta del vano hammam.

The system automatically interrupts steam distribution when the door of the Hammam is left open for a long time.

È possibile ascoltare la propria musica preferita all'interno della sauna o dell'hammam utilizzando la connessione Bluetooth del proprio Tablet o Smartphone. Dotata di due casse stereo, Effe Sound System si collega automaticamente agli altoparlanti interni senza dover installare software o predisporre collegamenti specifici.

You can listen to your favourite music inside the sauna or hammam using a Bluetooth connection and your own device. The Effe Sound System, which has two stereo speakers, connects automatically to the internal speaker with no need to install any software or make special connections.

ESS
EFFE SOUND
SYSTEM

This system can control remotely the sauna or the Turkish bath. To enable it, just download the Effe Confort Control App (available on iOS and Android) to your Tablet or Smartphone. This makes it possible to personalise your own experience conveniently from other places in your home and pre-set such functions as switch-on time, temperature and your preferred light selection. The Wi-Fi cover in the sauna or hammam area enables you to program it remotely from almost any other location, such as your office or car. Last but not least, the Effe ECC App provides you with useful information about the product, such as how to get the best out of your sauna or your hammam and its health benefits.

Sistema che consente di gestire a distanza il bagno turco o la sauna, scaricando l'apposita App Effe Confort Control (disponibile su ambiente iOS e Android) sul proprio Tablet o Smartphone. È possibile personalizzare la propria esperienza comodamente da altri ambienti della casa ed eseguire funzioni quali impostazione dell'ora di accensione, della temperatura e selezione della luce preferita. La copertura Wi-Fi nell'ambiente in cui sono inseriti il bagno turco o la sauna permette una programmazione remota da qualsiasi luogo (ufficio, auto, ecc.). Infine l'App Effe ECC permette di avere informazioni utili sull'utilizzo del prodotto: da come utilizzarli al meglio a quali sono i suoi benefici.

ECC
EFFE COMFORT
CONTROL

PORTE E VETRATE

DOORS AND GLASS PANELS

Le speciali porte Effe per hammam sono progettate per ottenere una tenuta perfetta alla fuoriuscita del vapore, garantendo il giusto ricircolo d'aria. L'acciaio inox, l'alluminio e il vetro temperato di 8 mm di spessore rendono ogni modello molto durevole e facilmente abbinabile allo stile di ogni arredamento. Grazie alle porte Effe, anche la semplice doccia di casa può essere trasformata in un perfetto bagno turco.

The special doors created by Effe for Hammams are designed to ensure a perfect seal against the escape of steam thus ensuring proper air circulation. Stainless steel and 8mm-thick toughened glass make each model tough and long-lasting and easily adaptable to any furnishing style. Effe's special doors also enable any ordinary home shower to be transformed into the perfect Turkish bath.

SEDUTE E FONTI

SEATING AND SPRINGS

Serie di arredi progettati in maniera specifica per l'interno dell'hammam e della doccia, con materiali facili da pulire e resistenti all'azione dell'acqua.

A range of fittings specially designed for the inside of the Hammam and shower, made of easy-to-clean and water-resistant materials.

ARREDI E ACCESSORI

FURNISHINGS AND ACCESSORIES

Effe ha studiato complementi d'arredo come poltrone, lettini, tavoli e chaise longue, che si abbinano a saune e hammam per completare con stile la vostra area benessere.

Effe has designed a complete range of fittings for saunas and Hammams with armchairs, loungers, tables and chaise longues to complete your spa area in style.

1 >

2 >

Effe presenta in collaborazione con Remedia, azienda che utilizza prodotti naturali e biologici coltivati e lavorati secondo antiche tradizioni di erboristeria alchemica, una linea di fragranze per sauna e hammam che ampliano i benefici di questi antichi rituali con una dimensione olfattiva e onirica.

PERFECT
WELLNESS
FRAGRANCES

Effe has come together with Remedia, which uses natural organic products that are grown and processed according to ancient traditions of alchemical herbalism, to create a range of fragrances for saunas and Hammams which heighten the benefits of these ancient rituals thanks to their olfactory and almost dreamlike effect.
